DETAILED ACTION

Response to Amendment

1. The amendment of 12/04/2004 has been considered and acted upon as indicated below.

Allowable Subject Matter

2. Claims 7- 17 and 21-31 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The closest prior art of Aubert et al. (US 4,623,423) does not suggest, in a method of growing stoichiometric lithium niobate and lithium tantalite crystals, the charging of a zone stuff material after charging solid feed material into a long crucible and then melting the zone stuff while keeping the underlying solid feed material in the solid phase. No zone stuff material is suggested in Aubert et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
